Legal Disclaimer

"This document constitutes an integral part of the Telenet Reference Offer for Basic TV / IDTV / BB and should be fully complied with by the Beneficiary at all times. Non compliance, incomplete or deviating application of this document by the Beneficiary, or his authorized agent, results in the suspension and ultimately termination of the Contract between Telenet and the Beneficiary.

At any time this document is susceptible to change by Telenet, Regulator's decision or by decision of a relevant judicial authority. Changes to this document will, depending on the circumstances for change, be appropriately notified to the Beneficiary and published on the Telenet website.

Telenet has appealed the CRC decisions of the VRM, BIPT and CSA of 1 July 2011 concerning the market analysis of the broadcasting market in Belgium and it consequently reserves all its rights in relation to this document."

Glossary and Abbreviations

Widely used symbols and abbreviations are documented in **TLN-WRO-GA-G-M-PAAH**

Legend on Document categories, types and codes

Document Categories:

General: general purpose information type documents that contain information relevant to all components of the Telenet Wholesale Reference Offer.

Broadband: Documents that contain information relevant to the Broadband component of the Telenet Wholesale Reference Offer: Reference Offer Broadband Services (ROBB). Please note that, if the beneficiary desires to make use of the implementation of the interactive data return path of the Telenet Wholesale Reference offer Basic TV Annex Interactive Services (AIDTV) via the Telenet HFC network, specification and certification documents listed in this category broadband also apply to the category iDTV.

TV: Documents that contain information relevant to the TV component of the Telenet Wholesale Reference Offer.

(i)DTV: Documents that contain information relevant to the ROTV/AIDTV component of the Telenet Wholesale Reference Offer. Please note that, both non-interactive (ROTV) and interactive AIDTV sub-offers are part of this component. Further in the section document codes it can be seen which documents are applicable for each sub-offer.

Technical Processes: Documents that contain information on technical interaction procedures between AO and TLN in order to allow AO to make use of the Telenet Wholesale Reference Offer.

Process: Documents that contain information on Operational procedures & processes between AO and TLN in order to allow AO to make use of the Telenet Wholesale Reference Offer.

Miscellaneous: Documents that contain general purpose information on the Telenet Wholesale Reference Offer not belonging to one of the above specific categories

Document Types:

Architecture (ARCH): Architecture type documents (ARCH) mainly have an informational / explanatory purpose to highlight the overall technical set-up.

Specification (SPEC): Specification type documents (-SPEC) are documents specifying logical/physical interfaces/protocols, etc., to which AO equipment/systems need to comply

Certification (CERT): Certification type documents (-CERT) describe the certification process and methodology (so not the interfaces or protocols, those are found in the specification type documents)

Technical Processes (TPRC): Technical Process type documents (TPRC) describes technical procedures for exchanging information and interacting between Telenet and the AO.

Operational Processes & Procedures (OPRC): Operational Process type documents (OPRC) describes operational procedures for exchanging information and interacting between Telenet and the AO.

Product Catalogue: Type documents (PCA) describing the information of the Wholesale Product.

Miscellaneous (MISC): Miscellaneous type documents (-MISC) documenting various topics not belonging to one of the specific categories above.

Document Identification Codes (DOC ID / FILE NAME):

General DOC ID structure:

TLN-WRO-UA-V-X-YWZZ

TLN-WRO: Fixed identifier string meaning TeLeNet Wholesale Reference Offer

UA: Document Classification, where U is **G** in case of General Annex; where U is **T** in case of Technical Annex.
And where **A** is Annex

V: Document Category, allowed values: **G**(eneral), **B**(roadband), **A**(TV), **I**(DTV), **T**(echnical processes), **P**(rocess),
M(iscellaneous)

X: Document type, allowed values: **A**(rchitecture), **S**(pecification), **C**(ertification), **T**(echnical processes),
O(perational processes & Procedures), **M**(iscellaneous), **P**(roduct Catalogue)

Y: Indicates if document is **P**(ublic) and hence included in the TLN wholesale reference offer or **I**(nternal)

W: Document variant indicator. **I** means applicable to iDTV specifically only; **D** means this variant is applicable to both DTV and iDTV; **A** means this variant is applicable for whole Offer (Basic TV, iDTV & BB)

ZZ: Document unique sequence identifier: values **AA**, **AB**, **AC**, **AD**, etc...

Document file name:

Document file name as stored on the internal TLN wholesale reference site is:

DOC ID_Vx.yy.extension

- Where all « - » (dash) connectors between name parts have been replaced by « _ » (underscore) for broad file system compatibility
- Version number _Vx.yy is appended, x being major version number, yy minor version number
- extension is the extension of the document original source file : e.g. : .doc, .xls, .vsd

Before external submission/publication all documents are converted to pdf format, keeping the same filename but with .pdf extension

Example internal source file name for this document: TLN_WRO_TA_G_M_PAAA_V0.50.doc

Example external (after publication) file name for this document:
TLN_WRO_TA_G_M_PAAA_V0.50.pdf
